

## 1.1 Media A

**Media A User Table(tb\_a\_user)**

Field	Type	Description
uid	char(16)	Primary Key, Author ID Desensitized processed
name	varchar(64)	Nickname
follower_count	bigint	Follower count
following_count	bigint	Following count
article_count	int	Total article count
favoriting_count	bigint	Total favoriting article count
favorited_count	bigint	Total favorited count
location	varchar(96)	User register location, which can be modified by user.
gender	varchar(4)	1: male 2: female 0 unknown
birthday	varchar(16)	Birthday
verify_1	varchar(96)	Verify info (Blue V) Desensitized processed, such as: DOUYIN will be replaced by A
verify_2	varchar(96)	Verify info (Yellow V) Desensitized processed, such as: DOUYIN will be replaced by A
extra	varchar(256)	Extra info

create_time	datetime	The record created time (America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone) DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP

### Media A Video Table(tb\_a\_video)

Field	Type	Description
vid	char(16)	Primary Key, Video ID Desensitized processed
uid	char(16)	The author of this video Desensitized processed
publish_time	bigint	The publish time of the video The milliseconds since 1970.01.01
desc_info	varchar(256)	Description about the video
comment_count	int	Comment count
digg_count	bigint	Digg count
share_count	int	Share count
forward_count	int	Forward count
download_count	int	Download count
label	varchar(96)	Sticker name
ratio	varchar(16)	Video's definition
bit_rate	bigint	Video's bitrate

video_duration	int	Video duration in milliseconds
m_author	varchar(128)	Music author
m_title	varchar(128)	Music title
extra	varchar(256)	Extra info
create_time	datetime	The record created time (America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone) DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP

## 3.2 Meida B

**Media B User Table(tb\_b\_user)**

Field	Type	Description
uid	char(16)	Primary Key, Author ID Desensitized processed
name	varchar(64)	Nickname
follower_count	bigint	Follower count
following_count	bigint	Following count
article_count	int	Total upload video count
play_count	bigint	Total play count
read_count	bigint	Total read count
level	varchar(4)	Level of the user

gender	varchar(4)	Gender
birthday	varchar(10)	Birthday
tc_count	bigint	Total charge count
mc_count	bigint	Latest month charge count
tags	varchar(96)	User tags
verify_type	varchar(4)	Verify type -1 not verified, 0 personal verified 1 Industry verified
verify_title	varchar(64)	Verified title
vip_type	varchar(4)	Vip type 0:ordinary customer;1: big members;2: annual big members
vip_status	varchar(4)	Vip state, 0: invalid, 1: normal
extra	varchar(256)	Extra info
create_time	datetime	The record created time (America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone) DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP

#### Media B Video Table(tb\_b\_video)

Field	Type	Description
vid	char(16)	Primary Key, Video ID Desensitized processed

uid	char(16)	The author of this video Desensitized processed
publish_time	varchar(16)	Upload date, Format like: 20200101
title	varchar(64)	Video title
video_duration	varchar(16)	Video duration in string format
play_count	bigint	Play count
comment_count	bigint	Comment count
danmaku_count	bigint	Danmaku count
favorite_count	bigint	Favorite count
digg_count	bigint	Digg count
share_count	bigint	Share count
tags	varchar(96)	Video tags
type	varchar(32)	Vide type
second_category	varchar(32)	Secondary classification
extra	varchar(256)	Extra info
create_time	datetime	The record created time ( America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone)

		DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP
--	--	--

### 3.3 Meida C

#### Media C User Table(tb\_c\_user)

Field	Type	Description
uid	char(16)	Primary Key, Author ID Desensitized processed
name	varchar(64)	Nickname
desc_info	varchar(512)	Description about the user
verify_type	varchar(4)	-1/10/200/220: not verified 0:individual verified(mainly for C hall of fame) 1:government verified 2:company verified 3:media verified 4:school/group verified 5:website verified 6:application verified 7:institution verified 8: personal verified(various)
verify_info	varchar(64)	Verified title
verify_industry	varchar(64)	Verified industry
follower_count	bigint	Follower count
following_count	bigint	Following count
blog_count	int	Total blog count

location	varchar(64)	User's location
extra	varchar(1024)	Extra info
create_time	datetime	The record created time ( America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone) DEFAULT CURRENT_TIMESTAMP ON UPDATE CURRENT_TIMESTAMP

#### Media C Article Table(tb\_c\_blog)

Field	Type	Description
bid	char(16)	Primary Key, Blog ID Desensitized processed
uid	char(16)	The author of this blog Desensitized processed
content	varchar(2048)	Content of this blog
publish_time	bigint	Publish time of the blog The milliseconds since 1970.01.01
forward_count	bigint	Forward count
comment_count	bigint	Comment count
digg_count	bigint	Digg count

content_type	varchar(4)	0: normal 1: contain video
play_count	bigint	Play count of blogs which contain video
creation_type	varchar(4)	0:original 1:repost
related_bid	char(16)	Pid of reposted blog only when creation_type is 1
topic	varchar(256)	Topic which the blog belongs to
extra	varchar(1024)	Extra info
create_time	datetime	The record created time ( America time zone) Format like: 2020-07-29 03:22:13
update_time	timestamp	Last modify time (America time zone)
